E.C.D. AUTOMOTIVE DESIGN x BLACKDOG TRADERS LAND CRUISERS & VINTAGE 4X4

Good afternoon [redacted]

Our Toyota Land Cruiser FJ's are growing in popularity, and for good reason.

Just like our Defenders, these iconic classic trucks are being taken to a whole new level by our team. We are combining the rugged capability that the Land Cruisers are known for with ECD's luxury standards.

Every ECD build undergoes a full restoration, meaning everything is brand new down to the nuts and bolts. You can expect upgraded mechanical features like upgraded axles, brakes, suspension, as well as a powerful GM V8 LS3 engine with your choice of automatic or manual transmission.

The luxury interior will be paired with modern day creature comforts like a premium sound system with Apple CarPlay, back up camera and Bluetooth capability.

If you're looking for a classic vehicle capable of turning heads, then consider the ECD Toyota Land Cruiser FJ40!
